Der Preis beträgt pro Band DM 88,00 zuzüglich Porto und Versandgebühr. Jeder Band enthält ein Autoren- und Sachregister. Jeder zehnte Band (Registerband) besteht aus einem ausführlichen Register über die vorhergehenden neun Bände.
Einzelbeiträge aus nichtperiodischen Sammelwerken werden durch ○, Bücher durch * gekennzeichnet. Zum Referat angeforderte Monographien und Bücher werden besprochen, wenn zu diesem Zweck ein Rezensionsexemplar zur Verfügung gestellt wird.
Referate, die aus Bulletin Signalétique, Mathematical Reviews, Referativnyĭ Žurnal Matematika (Mehanika, etc.) oder Statistical Theory und Method Abstracts abgedruckt sind, werden durch die Abkürzung B.S., M.R., R.Ž. Mat. (R.Ž.Meh., etc.) bzw. S.T.M.A. unter dem Referat gekennzeichnet.

Springer-Verlag

Heidelberger Platz 3, 1000 Berlin 33

Die Herstellung der Register erfolgt unter Mitwirkung des Großrechenzentrums für die Wissenschaft in Berlin.

Das Zentralblatt für Mathematik und ihre Grenzgebiete ist von O. Neugebauer 1931 begründet und bis 1938 geleitet worden. Es wurde fortgeführt von E. Ullrich (1938-1940) und H. Geppert (1940-1945). H.L. Schmid hat das Zentralblatt im Jahre 1947 wieder aufgebaut und bis zu seinem Tode im Jahre 1956 geleitet. Seither waren an der Leitung der Redaktion beteiligt: E. Pannwitz (1956-1969), W. Romberg (1966-1977), U. Güntzer (1969-1974).

is volume is a cumulative index for the volumes 351-399. The "Author Index" ntains all publications with full title and bibliographical data announced by Zentralblatt für Mathematik/Mathematics Abstracts" and published mainly in e period 1977-1979. References are to volume and abstract number. Books e denoted by an asterisk after the abstract number and editors of books with ed.)" after their name. Russian authors are listed under the transliterated elling according to the "Transliteration Table" on page 3521.

order to faciliate tracing anonyma, proceedings of conferences, collections articles etc. a "Key Index" is included, where they are also listed under some ain key words, for instance the title or conference place. In the "Biographical eferences" biographical notes are listed under the name to whom they refer. ie "Subject Index" includes all publications announced in the volumes 351-399 id is arranged according to the "AMS Subject Classification Scheme (1979/80)" the American Mathematical Society which can be found on pages 3399-3446. ie "List of Journals" contains all journals with full title, which are scrutinized r Zentralblatt permanently and listed under their abbreviations.

Description of Index System

Current Index System

Volume Index: Every volume of Zentralblatt für Mathematik/Mathematics Abstracts includes, besides the abstracts themselves,

- Author Index
- Key Index (including anonyma, proceedings of conferences, and collections of articles according to some main key words, for instance the subject and location of conferences)
- Biographical references (biographical notes are listed under the name to whom they refer)
- Subject Index (according to the Subject Classification Scheme 1979/80 of the American Mathematical Society printed at the end of volume 400).

10-Volume Index: Every tenth volume is a cumulative index of the preceding nine volumes and contains a list of journals covered by Zentralblatt. The first 10-volume index is Volume 110.

50-Volume Index: Every fiftieth volume is a cumulative index of the preceding 49 volumes. The first 50-volume index is Volume 300. For technical reasons Volume 250 only includes data from Volumes 221-249.

Index System for Volumes 1-100

In order to make earlier publications easily accessible to readers of Zentralblatt cumulative indexes have also been published.

1931-1950: Publications of these years are reported on in Volumes 1-41 as well as 60-61. The cumulative author indexes for this period are Volume 62 I/II (Vol. 1-25) and Volume 63 I/II (Vol. 26-41, 60, 61). The latter volume also lists additional works from the period 1942-1946 which were not included in Zentralblatt.

1951-1956: Annual indexes were published for these years in Volume 54 (for 1951), Volume 69 (for 1952/53), Volume 59 (for 1954), Volume 76 (for 1955/56).

Since 1957: A cumulative index of Volumes 77-100 was published in Volume 63 III/IV. After this Zentralblatt started with 10-volume Indexes. (See current index system.)

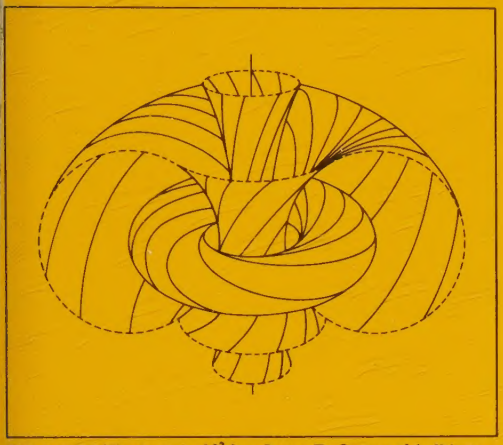
Mathematics Today– Twelve Informal Essays

Editor: L.A. Steen

1978. 171 figures. VIII, 367 pages
Cloth DM 27,–; US $ 14.90
ISBN 3-540-90305-4



Clifford parallels filling the whole of S^3 from: Penrose, The Geometry of the Universe

Mathematics Today is a contemporary, popular account of mathematics, our invisible culture. It is the only book to provide a nontechnical survey of current pure and applied mathematics in the past ten years. In it, leading mathematicians explain the nature and significance of their work, conveying a sense of the methods, accomplishments and challenges of modern mathematics. Accessible to non-specialists and non-mathematicians, **Mathematics Today** offers twelve contemporary views of the man-made mathematical universe and its diverse effects on modern society.

Contents: R.L. Graham, Combinatorial Scheduling Theory.– D.S. Moore, Statistical Analysis of Experimental Data.– M. Davis, What is a Computation? – K. Appel, W. Haken, The Four-Color Problem.– F.C. Hoppensteadt, Mathematical Aspects of Population Biology.– J.L. Alperin, Groups and Symmetry.– F.E. Browder, S. Mac Lane, The Relevance of Mathematics.– A.L. Hammond, Mathematics - Our Invisible Culture.– J.T. Schwartz, Mathematics as a Tool for Economic Understanding.– P.O. Thompson, The Mathematics of Meteorology.– I. Richarts, Number Theory.– R. Penrose, The Geometry of the Universe.

S. Kovalevskaya

A Russian Childhood

1850–1891

Introduced, Translated and Edited by B. Stillman

With An Analysis Of Kovalevskaya's Mathematics by P.Y. Polubarinova-Kochina

1978. Approx. 8 figures. Approx. 270 pages
Cloth DM 33,–; US $ 16.50
ISBN 3-540-90348-8
Prices are subject to change without notice

A Russian Childhood has not been available in English for a considerable number of years. In addition to a completely new translation of the main text, this edition contains several passages which have never been published in English, a thorough introduction with much background material by the translator, notes, and a summary of Sofya Kovalevskaya's mathematical work by P.Y. Polubarinova-Kochina.

Contents:
Earliest Memories.– The Thief.– Metamorphosis.– Palibino.– Miss Smith.– My Uncle Pyotr Vasilievich Krukovsky.– Uncle Fyodor Fyodorivich Shubert.– My Sister.– Anyuta's Nihilism.– Anyuta's First Literary Experiments.– Our Friendship with Fyodor Mikhailovich Dostoevsky.– Notes.– An Autobiographical Sketch.– On the Scientific Work of Sofya Kovalevskaya.

Part I

Cumulative author index for volumes 351-399,
Aaberge, R. - Fomenko, A.T. 1

Part II

Cumulative author index for volumes 351-399,
Fomenko, O.M. - Lauesen, S. 717

Part III

Cumulative author index for volumes 351-399,
Laufer, H.B. - Romberg, T.M. 1429

Part IV

Cumulative author index for volumes 351-399,
Romenskii, V.P. - Zyuzyin, V.O. 2177

Part V

Key index for volumes 351-399 2941
Biographical references for volumes 351-399 3057
Cumulative subject index for volumes 391-399 3060
AMS Subject classification scheme (1979/80) 3399
List of journals 3447
Transliteration table 3521
Corrections 3522

This volume is a cumulative index for the volumes 351-399. The "Author Index" contains all publications with full title and bibliographical data announced by "Zentralblatt für Mathematik/Mathematics Abstracts" and published mainly in the period 1977-1979. References are to volume and abstract number. Books are denoted by an asterisk after the abstract number and editors of books with "(ed.)" after their name. Russian authors are listed under the transliterated spelling according to the "Transliteration Table" on page 3521.
In order to faciliate tracing anonyma, proceedings of conferences, collections of articles etc. a "Key Index" is included, where they are also listed under some main key words, for instance the title or conference place. In the "Biographical References" biographical notes are listed under the name to whom they refer. The "Subject Index" includes all publications announced in the volumes 351-399 and is arranged according to the "AMS Subject Classification Scheme (1979/80)" of the American Mathematical Society which can be found on pages 3399-3446. The "List of Journals" contains all journals with full title, which are scrutinized by Zentralblatt permanently and listed under their abbreviations.
